Ref: 1968 Shelby Convertible Prototype S/N 67413C9A00139

Dear Joel:

I have attached a copy of the 1967 GT350/GT500 Mustang Production Order for the above mentioned 1968 prototype convertible.

Shelby purchased this automobile as an engineering car in the 1967 model year to build his first 1968 GT500 convertible prototype. Upon completion, this vehicle was used in early 1968 press photos and for factory brochure photographs.

I viewed this vehicle in the early 1990's and verified its authenticity at that time. I have been told that the car you intend to auction is the same vehicle and have the ability to confirm it's Shelby and Ford serial number for a potential purchaser.

Very truly yours,

David Mathews
1967 Shelby Registrar
